

## FILLER KOSME WEIGHFILL

**MODEL**  
WEIGHFILL FC

**BRAND**  
KOSME

**CATEGORY**  
FILLER

The filling and capping system (F, C) works on the rotary principle and is designed for glass and plastic bottles. The system consists of a 1,800 mm diameter weighing filling carousel with 40 filling valves and a 540 mm diameter capping tower with 12 capping heads. Both units are located on a common base. Containers are transported by basic handling and transferred using a transfer star from one unit to another.

Machine:	Filler
Brand:	Kosme
Year of construction:	2015
Max speed:	24,000 bph (Depends on product type)
Current format:	3 different formats (All 1000 ml)
Container Material:	Plastic and glass
Neck finish type:	28 mm uni-lok single thread / 38 mm special design
Number of grippers:	40
Number of valves:	40
Number of capping heads:	12
Hot fill:	No
Type of transfer:	Transfer star wheels

Capper brand:	Arol
Machine pintch (mm):	141 mm
Machine type:	Rotary
Working direction:	Counterclockwise
Max. Container height:	350 mm
Machine condition:	Used and guaranteed
Warranty:	6 months
Where to audit:	Nymex Puebla facilities
Worktop height:	1100 mm
Machine size (mm):	3170 x 4617 x 2616
Capper height (mm):	3343
Power supply:	460 V – 265 V 3 PH + GND 60 Hz
Pressure:	6 Bar
PLC:	Alen bradley B&R
HMI:	B&R / Movición
Machine complete with:	Marmoinox lid lifter
